INSTITUTE

equipping disciples, every church, every nation

We are all called.

How do you hear God calling you? How do you know you have heard God accurately? Did you know that discovering your passion and spiritual gifts are very closely related to knowing your calling to ministry?

“The call of the kingdom isn’t just one part of our life, it’s all of it!”

John Wimber”

Vineyard Institute exists as a global education provider to equip the people of God to pursue the call to go out into the world as workers of the harvest, whether that calling is a disciple in the workplace and community, a parent, a small group leader, ministry worker, missionary, church-planter or a pastor.

At VI, you will be trained in a flexible environment with high quality biblical education, integrated with spiritual transformation so that you are prepared for kingdom work at any level in the world and in the church.
